BRAND GUIDELINES

BRAND STORY

Hooray HQ is a party hire brand based in Whangaparaoa, Auckland, New Zealand. We help people mark their moments with ease and a bit of wow.

We offer balloon garlands, neon sign hire, and a photo booth that brings the fun. Whether it's a backyard birthday, a corporate do, or anything in between, we sort the statement pieces so you can focus on the good times.

OUR MISSION

"Parties made easy, memories made bright."

OUR VALUES

Ease — We make celebrating simple.

Joy — Every detail should spark delight.

Bold — We go big so you don't have to.

Personal — Your party, your way.

LOGO USAGE

PRIMARY LOGO

The primary logo features "HOORAY" in coral brush script with "HQ" in white inside a coral circle beneath. Decorative elements (confetti, dots, zig zags) surround the wordmark. Always maintain clear space equal to the circle height.

SECONDARY LOGO

The secondary logo is a straight, horizontal version of the "HOORAY" wordmark without the signature arch or HQ circle. This simplified format is designed for digital platforms where curved text loses legibility at smaller sizes — think social media profile pictures, email signatures, website headers, browser tabs, and anywhere horizontal space is tight. Use this version when the primary arched logo won't reproduce cleanly.

TYPOGRAPHY

Consistent typography builds brand recognition. Hooray HQ uses two typefaces to balance personality with clarity.

PRIMARY TYPEFACE

HOORAY! STYLE

Used for: Headlines, logo wordmark, section titles, and any text that needs personality and warmth. This brush script conveys fun, celebration, and approachability.

SECONDARY TYPEFACE

Clean Sans-Serif

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

0123456789

Used for: Body text, subheadings, captions, the HQ wordmark, and any informational content. Provides clarity and legibility to balance the expressive primary font.

TYPE HIERARCHY

H1 Headlines — Primary script, large scale

H2 Subheadings — Primary script, medium scale

Body — Secondary sans-serif, 28-35pt

Captions — Secondary sans-serif, 18-24pt

GRAPHIC eLements

Hooray HQ uses playful hand-drawn graphic elements to add energy and celebration to designs. These should be used sparingly as accents, never as focal points.

CONFETTI

Colourful confetti illustrations add a sense of celebration. Use in corners or edges of designs, rotated at playful angles. Keep them subtle - they support, not dominate.

DOODLE DOTS

Black hand-drawn dot clusters add texture and a handmade feel. Use small, rotated at varied angles in corners or margins.

ZIG ZAGS

Hand-drawn zig zag lines add movement and energy. Use as decorative accents in margins or alongside text blocks.

USAGE RULES

- Always use with transparent backgrounds
- Rotate at playful angles (never perfectly straight)
- Keep small - accents only, not focal points
- Place in corners and edges, not centre
- Use 2-3 per design maximum
- Maintain the hand-drawn, imperfect aesthetic

Tone of Voice

How Hooray HQ sounds is just as important as how it looks. Our voice is warm, confident, and down-to-earth - like a friend who happens to throw amazing parties.

WE ARE

Friendly — Warm, approachable, like chatting to a mate

Confident — We know our stuff and it shows

Playful — Light-hearted without being silly

Direct — Clear and to the point, no fluff

WE ARE NOT

Corporate — No jargon or stiff language

Over-the-top — Fun but not childish

Pushy — We suggest, not pressure

Generic — Every word should feel like us

EXAMPLES

Instead of: "We provide premium party hire solutions for all occasions."

Say: "We sort the statement pieces so you can focus on the good times."

Instead of: "Contact us to discuss your event requirements."

Say: "Flick us a message and let's make your party pop."

KEY

PHRASES "Parties made easy, memories made bright." | "Let's make it happen." | "Your party, your way."

NICE WORDS

“Absolutely fantastic! Hannah took on our theme and ideas, she was prompt with installation and the balloon display exceeded our expectations - the kids loved it. Highly recommend!”

FAVICON

The favicon uses the "H" from the Hooray HQ wordmark inside a coral circle. This works at tiny sizes (16x16px to 32x32px) for browser tabs, bookmarks, and app icons where the full logo won't be legible.
